

TRADESMAN CANOPY

This versatile unit sits directly onto the tray top giving maximum weatherproofing to the goods stored inside. With three large door access, apart from giving a covered working space it also allows ease of getting those larger items in and out of the canopy.

The canopy fits a range of utilities from single cab to dual cabs. Each door has recessed exterior door handles to help eliminate the possibility of catching on branches of trees. Four points to internal locking system for added security

Some of the many features of this canopy are the smooth exterior finish for ease of cleaning and also provides maximum space for sign writing.

The unit can be customised to suit your individual needs.
